

Workshop 2 Optional Exercise

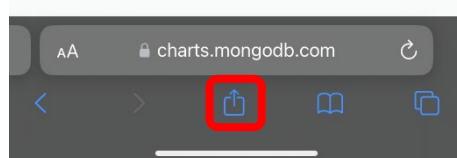

Creating a Dashboard Shortcut onto Mobile Home Screen

A. iPhone Users

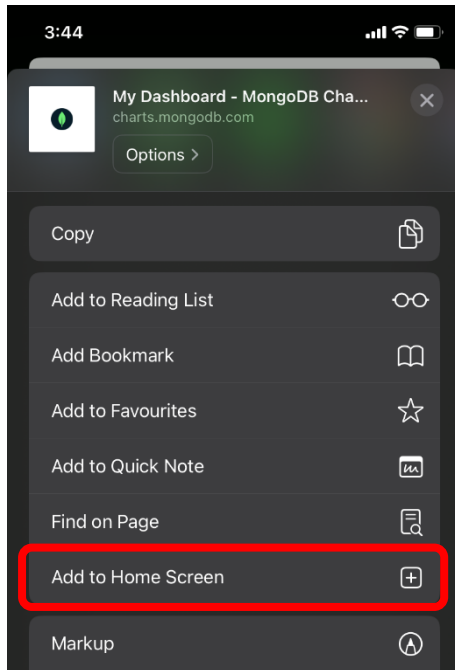

1. Typing in the Dashboard link in Safari or clicking the Dashboard link in the submission box.

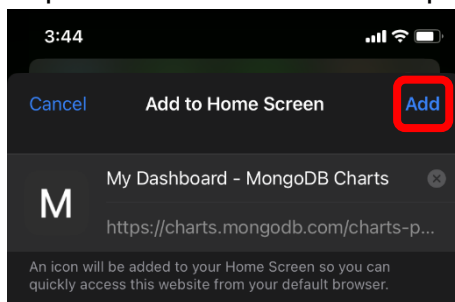

2. Tap the share button.

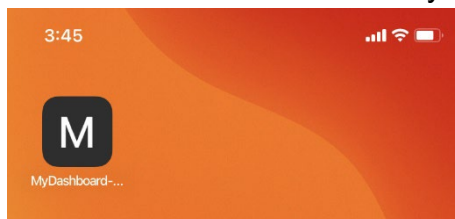

3. Tap the “Add to Home Screen” button. You might need to swipe down to locate the button.

4. Tap the “Add” button at the top right corner.

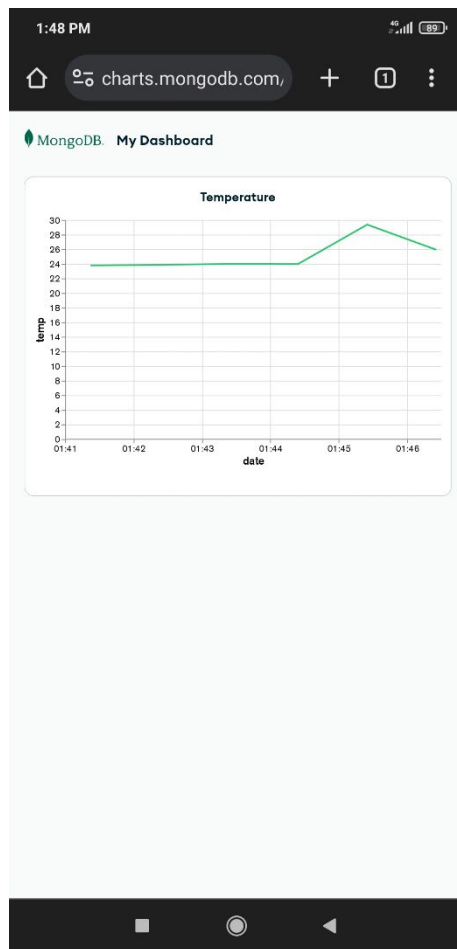

5. The shortcut will be added to your home screen.

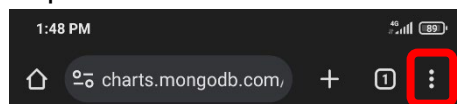

B. Android Users

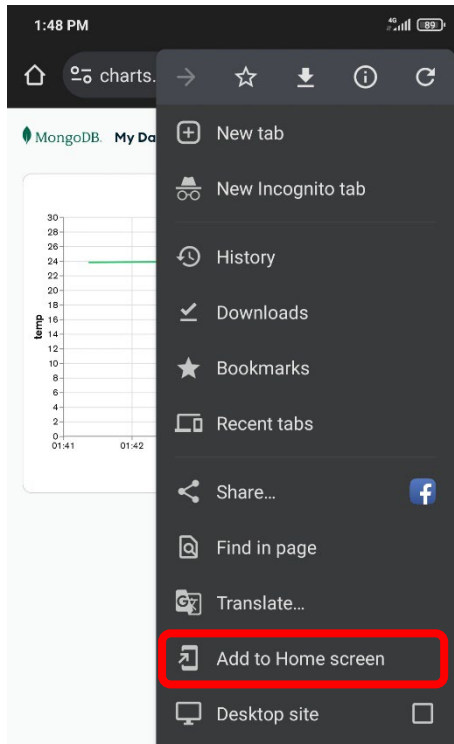

1. Typing in the Dashboard link in Chrome or clicking the Dashboard link in the submission box.

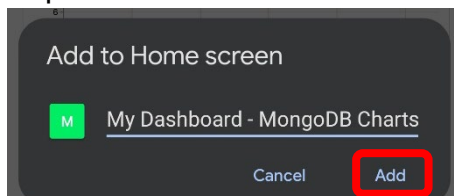

2. Tap the three-dots menu button in the top right corner.

3. Tap the “Add to Home Screen” button.

4. Tap the “Add” button.

5. The shortcut will be added to your home screen.
